

ah!38 Pivot

ah!38 Pivot

introduction

ah!38 excels as an exterior opening system comprising a balanced combination of thermal and acoustic behavior, suited to all climates. It is a system that allows double glazed surface areas of up to 19m², or triple glazed of up to 6m². Both options use 23mm vertical profiles.

pivot: opening system that functions by means of a pivoting component with a central or side rotation axis, allowing the execution of large glass surfaces. It comes with different safety latch options.
